

## **The Donald Picks A VP**

We all wait with baited breath while The Donald picks a VP candidate that won't show him up for being the fool that he is.

It's a small list, as one could imagine. Unfortunately, Justice Ginsburg has shined her light on The Donald and drawn criticism for it. Like we didn't know what Scalia thought of President Obama.

Of course that's different, racism is acceptable to the right wing, reason is not.
